# FMT - Subrack 1U

The FMT - 1U Subrack features a high-density design and low insertion loss. It aims at optimizing performance by accommodating up to 3 connector modules.

Cable management is quick and smooth because cables are easily secured and organized with cable hangers.

Data Centers | High Density Environments | Storage Area Networks (SAN) | Communications Rooms | Data Communication Networks

## FEATURES

- Easy network differentiation with colored patch cord routing guides in each tray
- Optimized use of bend-Insensitive, Uni-Boot patch cords for maximum density and reliability
- Efficient cable management and built-in labeling chart make MACs fast and smooth
- Strong fiber management system provides slack storage and bend radius protection
- Up to 72 LC connections

## STANDARDS

Compliant with the following standards:

- IEEE 802.3ab-2010 - ETL lab verified (up to 100G Ethernet)
- IEEE 802.3ae 10 Gb/sec
- IEEE 802.3ba 40Gb/s and 100 Gb/s
- IEC 60793-2-10:2019, applicable to A1-OM3 and A1-OM4
- ITU-T G.657.A2 for SM
- GR-449-CORE
- TIA-942
- UL94-V-0
- EIA-310
- RoHS

## SPECIFICATIONS

- Alodine Polished Coated Aluminum
- Color: RAL9005 - Black
- Height: 1U
- Width: 19". (ETSI compatible)
- Depth: 240 mm (without sliding tray)
- Blank Dummy Panels
