PTO – FTTH Box

Description:

PTO is an optical home plug, which can be wall mounted or installed on a DIN rail. It specifically designed for FTTH applications and enables easier installation through an extraction device of the cassette.
The PTO pre-terminated with length of 30m-45m in factory and used conveniently in the field of FTTH.
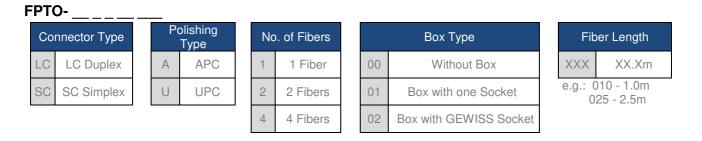

Features:

> Meet IEC, Telcordia GR-326 requirement.
> RoHS Compliant.
> Widely used for FTTH.
> Compact housing with protected connections.
> Easy integration into all types of communication box.
> Access differential between installation and operation.
> Vertical or horizontal DIN rail.
> Cover protection of fibers.
> Management of optical fibers in a cassette.
> Removable Cassette with cable docking and support integrated fittings.
> Protection of four connections and client cord connector with the device hood.
> Labeling area for identification.

Specifications:

> 1/2/4 Fibers are available (red, blue, green, yellow, 0.9mm LSZH loose tube cable)
> G657A2, White OD 4.0mm LSZH cable
> LC duplex or SC simplex Connectors, IL≤0.3dB, G657A2.
> UPC or APC Polishing type.
> Plywood reel, Cable, Package, Pigtails, labeling, Pizza carton, pulling eye.

Ordering Information:

FPTO- __ _ _ __ ___

Connector Type		Polishing Type		No. of Fibers		Box Type		Fiber Length	
LC	LC Duplex	A	APC	1	1 Fiber	00	Without Box	XXX	XX.Xm
SC	SC Simplex	U	UPC	2	2 Fibers	01	Box with one Socket	e.g.: 010 - 1.0m 025 - 2.5m	
				4	4 Fibers	02	Box with GEWISS Socket
